DETAILED ACTION

Election/Restrictions

1. This application contains claims 1-3 and 9-11 drawn to an invention nonelected with traverse in Paper No. 061404. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

2. Due to amendments and persuasive arguments by applicant, the previous rejections based on Miyamoto et al. have been overcome and are hereby withdrawn.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 4-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Tanaka et al. (WO 96/28500), for reasons cited in the prior Office action.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1713

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 4-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tanaka et al. (USPN 5,585,459) in combination with Tanaka et al. (WO 96/28500), for reasons cited in the prior Office action.

Response to Arguments

7. Applicant's arguments filed 11/22/2004 have been considered but they are not fully persuasive.

8. Regarding the 102(b) rejection based on Tanaka et al. (WO), in response to applicant's argument that the reference fails to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., that a surfactant is provided for apart from the water-soluble polymer) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993). The water-soluble polymeric surfactant recited in Tanaka et al. (WO), (see col. 5, lines 18-28 of US 5,910,567, which is the English translation), for example, contains polyalkylene chains with 2 to 4 carbons per group and 1 to 50 groups per chain (amounting to 2 to 200 carbons per chain). This is consistent with applicant's claims.

9. Regarding the rejection under 35 USC 103(a), applicant argues that Tanaka et al ('459) "is silent with respect to the addition of a water-soluble polymer". However, in col. 1, lines 48-52, Tanaka et al ('459) incorporates the teaching in EP-584597 of **preparing** the deprotenized natural rubber latex by treating the natural rubber latex with a protease and a (polymeric) surfactant consistent with that taught in the secondary reference (See page 7, lines 6-10 of EP-584597).

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
